

Alabama's Opioid Crisis

How the opioid epidemic has continued to impact the people of Alabama

State Facts

1,196 Deaths

or 75% of total overdose deaths involved opioids in 2023.1

1.6 Million Claims

or 5.69% of all Medicare Part D claims were for opioids in 2022 - an average of 97 per prescriber.2

71 Opioid **Prescriptions**

were written for every 100 persons in Alabama in 2023 - the second highest rate in the nation.3

22,891 **Beneficiaries**

on Medicare Part D had Opioid Use Disorder in 2022.4

National Data

of surgical patients receive an opioid prescription following surgery annually.5

194,447

Medicare Part D beneficiaries received "high" or "extreme" amounts of prescription opioids in 2022.6

1.1 million

Medicare beneficiaries suffered from Opioid Use Disorder in 2022. 6

\$33 billion

was the estimated cost to the Medicare program of Opioid Use Disorder in 2022.7

Over 81,000 Americans

died from an opioid-related drug overdose in 2023 - 79% of all overdoses in 2023.89

222 Americans Everyday

Kansas' Opioid Crisis

How the opioid epidemic has continued to impact the people of Kansas

State Facts

384 Deaths

or 62.4% of total overdose deaths involved opioids in 2023.1

662,646 Claims

or 4.55% of all Medicare Part D claims were for opioids in 2022 - an average of 60 per prescriber.²

52.8 Opioid Prescriptions

were written for every 100 persons in Kansas in 2023.3

6,515 **Beneficiaries**

on Medicare Part D had Opioid Use Disorder in 2022.4

National Data

of surgical patients receive an opioid prescription following surgery annually.5

194,447

Medicare Part D beneficiaries received "high" or "extreme" amounts of prescription opioids in 2022.6

1.1 million

Medicare beneficiaries suffered from Opioid Use Disorder in 2022. 6

\$33 billion

was the estimated cost to the Medicare program of Opioid Use Disorder in 2022.7

Over 81,000 Americans

died from an opioid-related drug overdose in 2023 - 79% of all overdoses in 2023.89

222 Americans Everyday

Minnesota's Opioid Crisis

How the opioid epidemic has continued to impact the people of Minnesota

State Facts

1,000 Deaths

or 79.4% of total overdose deaths involved opioids in 2023.1

816,088 Claims

or 3.33% of all Medicare Part D claims were for opioids in 2022 - an average of 33 per prescriber.²

26.5 Opioid **Prescriptions**

were written for every 100 persons in Minnesota in 2023.3

13,529 **Beneficiaries**

on Medicare Part D had Opioid Use Disorder in 2022.4

National Data

of surgical patients receive an opioid prescription following surgery annually.5

194,447

Medicare Part D beneficiaries received "high" or "extreme" amounts of prescription opioids in 2022.6

1.1 million

Medicare beneficiaries suffered from Opioid Use Disorder in 2022. 6

\$33 billion

was the estimated cost to the Medicare program of Opioid Use Disorder in 2022.7

Over 81,000 Americans

died from an opioid-related drug overdose in 2023 - 79% of all overdoses in 2023.89

New Jersey's Opioid Crisis

How the opioid epidemic has continued to impact the people of New Jersey

State Facts

2,454 Deaths

or 88.3% of total overdose deaths involved opioids in 2023.1

1,042,375 Claims

or 2.76% of all Medicare Part D claims were for opioids in 2022 - an average of 30 per prescriber.²

26.3 Opioid **Prescriptions**

were written for every 100 persons in New Jersey in 2023.3

25,512 **Beneficiaries**

on Medicare Part D had Opioid Use Disorder in 2022.4

National Data

of surgical patients receive an opioid prescription following surgery annually.5

194,447

Medicare Part D beneficiaries received "high" or "extreme" amounts of prescription opioids in 2022.6

1.1 million

Medicare beneficiaries suffered from Opioid Use Disorder in 2022. 6

\$33 billion

was the estimated cost to the Medicare program of Opioid Use Disorder in 2022.7

Over 81,000 Americans

died from an opioid-related drug overdose in 2023 - 79% of all overdoses in 2023.89

222 Americans Everyday

Oregon's Opioid Crisis

How the opioid epidemic has continued to impact the people of Oregon

State Facts

1,422 Deaths

or 80.7% of total overdose deaths involved opioids in 2023.1

910,596 Claims

or 5.15% of all Medicare Part D claims were for opioids in 2022 - an average of 49 per prescriber.²

40 Opioid **Prescriptions**

were written for every 100 persons in Oregon in 2023.3

16,761 **Beneficiaries**

on Medicare Part D had Opioid Use Disorder in 2022.4

National Data

of surgical patients receive an opioid prescription following surgery annually.5

194,447

Medicare Part D beneficiaries received "high" or "extreme" amounts of prescription opioids in 2022.6

1.1 million

Medicare beneficiaries suffered from Opioid Use Disorder in 2022. 6

\$33 billion

was the estimated cost to the Medicare program of Opioid Use Disorder in 2022.7

Over 81,000 Americans

died from an opioid-related drug overdose in 2023 - 79% of all overdoses in 2023.89

222 Americans Everyday

Utah's Opioid Crisis

How the opioid epidemic has continued to impact the people of Utah

State Facts

468 Deaths

or 70% of total overdose deaths involved opioids in 2023.1

495,562 Claims

or 5.59% of all Medicare Part D claims were for opioids in 2022 - an average of 47 per prescriber.²

43.8 Opioid **Prescriptions**

were written for every 100 persons in Utah in 2023.3

11,337 **Beneficiaries**

on Medicare Part D had Opioid Use Disorder in 2022.4

National Data

of surgical patients receive an opioid prescription following surgery annually.⁵

194,447

Medicare Part D beneficiaries received "high" or "extreme" amounts of prescription opioids in 2022.6

1.1 million

Medicare beneficiaries suffered from Opioid Use Disorder in 2022. 6

\$33 billion

was the estimated cost to the Medicare program of Opioid Use Disorder in 2022.7

Over 81,000 Americans

died from an opioid-related drug overdose in 2023 - 79% of all overdoses in 2023.89
